Manama, Bahrain | yusuf.hakeem.bh@gmail.com | +973 6666 9795 | linkedin.com/in/yusuf-hakeem-bh | github.com/ysa7799/business-administration-portfolio

PROFESSIONAL SUMMARY

Business Administration graduate (BBA) with 10+ years of operational experience at G4S Bahrain, covering record-keeping, reporting, compliance documentation, and cross-functional coordination. Reliable and detail-focused, with strong process discipline and clear communication with supervisors and stakeholders. Recently completed a Data Analytics program building practical Excel, Power BI, and SQL reporting skills. Based in Bahrain with the right to work - no visa sponsorship or relocation lead time - and available to start immediately in operations, administration, coordination, or reporting roles.

KEY SKILLS

Operations and Administration, Records Management, Process Documentation, Scheduling and Coordination, Operational Support, Compliance, Audit Readiness, Governance, Reporting, KPI Tracking, Data Analysis, Microsoft Excel, Google Sheets, Microsoft Word, PowerPoint, Power BI, SQL, Stakeholder Communication, Cross-functional Teamwork, Problem Solving, Time Management, Attention to Detail

PROFESSIONAL EXPERIENCE

Security Operator (Operations and Reporting), G4S, Bahrain

January 2014 - Present

- Maintained accurate, auditable operational records across 10+ years and thousands of shift logs, ensuring data integrity for management review and audit.
- Prepared daily and shift reports, consolidating raw activity into clear written summaries for supervisors and stakeholders.
- Tracked recurring incident frequency and patterns to identify operational-improvement areas, supporting planning and resource decisions.
- Performed routine compliance checks and documented outcomes consistently to support audit readiness and governance standards.
- Coordinated cross-functional response during incidents, maintaining complete, real-time documentation and communication under pressure.

Data Analytics Program (Part-Time), General Assembly, Bahrain

October 2025 - May 2026

- Completed a hands-on program in Excel, Power BI, SQL, and Python, building practical reporting and dashboarding skills for business use.
- Delivered projects including an operations KPI dashboard and a data-driven capstone, turning raw data into clear, decision-ready insights for non-technical audiences.

Software Engineering Immersive (400+ hours), General Assembly, Bahrain

June 2023 - September 2023

- Completed 400+ hours building digital applications; strengthened analytical thinking, problem solving, and disciplined documentation.
